

## **Azure Power's US\$75 Million Private Placement Completed**

**New Delhi, December 16, 2019:** Azure Power Global Limited (NYSE: AZRE), a leading independent solar power developer in India, has closed its previously announced US\$75 million private placement and issued 6,493,506 equity shares at US\$11.55 per share to Caisse de depot et placement du Quebec (CDPQ). Following this transaction, CDPQ's equity interest in Azure Power has increased from 41.4% to 49.4%. Azure Power Global Limited has 47,636,078 shares outstanding as of December 13, 2019.

### **About Azure Power**

Azure Power (NYSE: AZRE) is a leading independent solar power producer with a pan-Indian portfolio. With its in-house engineering, procurement and construction expertise and advanced inhouse operations and maintenance capability, Azure Power provides low-cost and reliable solar power solutions to customers throughout India. It has developed, constructed and operated solar projects of varying sizes, from utility scale, rooftop to mini & micro grids, since its inception in 2008. Highlights include the construction of India's first private utility scale solar PV power plant in 2009 and the implementation of the first MW scale rooftop project under the smart city initiative in 2013.

### **Forward Looking Statements**

This press release contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended and the Private Securities Litigation Reform Act of 1995, including statements regarding the Company's future financial and operating guidance, operational and financial results such as estimates of nominal contracted payments remaining and portfolio run rate, and the assumptions related to the calculation of the foregoing metrics. The risks and uncertainties that could cause the Company's results to differ materially from those expressed or implied by such forward-looking statements include: the availability of additional financing on acceptable terms; changes in the commercial and retail prices of traditional utility generated electricity; changes in tariffs at which long term PPAs are entered into; changes in policies and regulations including net metering and interconnection limits or caps; the availability of rebates, tax credits and other incentives; the availability of solar panels and other raw materials; its limited operating history, particularly as a new public company; its ability to attract and retain its relationships with third parties, including its solar partners; its ability to meet the covenants in its debt facilities; meteorological conditions and such other risks identified in the registration statements and reports that the Company has filed with the U.S. Securities and Exchange Commission, or SEC, from time to time. All forward-looking statements in this press release are based on information available to us as of the date hereof, and the Company assumes no obligation to update these forward-looking statements.
