

Azure Power Commissions a 50 MW NTPC Solar Project in Uttar Pradesh

New Delhi, September 22, 2017: Azure Power (NYSE: AZRE), a leading independent solar power producer in India, has announced that it has commissioned the final phase of its 50 megawatt (MW) solar power plant in the state of Uttar Pradesh. The 50 MW project is spread across 300+ acres of land.

Azure Power will provide power for 25 years at a tariff of INR 4.78 (~US\$ 0.07) per kWh to NTPC, the largest power utility of the Government of India. NTPC received a AAA debt rating from CRISIL, a Standard & Poor's Company. Azure Power secured the 50 MW PPA through an auction under the National Solar Mission Phase II, Batch-II Tranche I.

Uttar Pradesh is the most populous state in India and has a large peak energy supply deficit, according to the Central Electricity Authority. In addition, CRISIL projects that over 10 million unelectrified households will be connected by 2019. Azure Power is one of the largest solar developers in Uttar Pradesh and built the first utility scale solar project in Uttar Pradesh in 2015.

Speaking on this occasion, Inderpreet Wadhwa, Founder, Chairman and Chief Executive Officer, Azure Power said, "With the commissioning of this plant, we have once again demonstrated our strong project development, engineering, and execution capabilities. We are delighted to make a contribution towards the realization of our Hon'ble Prime Minister's commitment towards clean and green energy, through solar power generation. Our sincere gratitude to NTPC and the state of Uttar Pradesh for all the cooperation and support extended."

About Azure Power

Azure Power (NYSE:AZRE) is a leading solar power producer in India with a portfolio of over 1,000 MWs across 22 states/union territories. With over 150 MWs of high quality solar rooftop assets, the company has one of the largest rooftop portfolios in the country. With its in-house engineering, procurement and construction expertise and advanced in-house operations and maintenance capability, Azure Power provides low-cost and reliable solar power solutions to customers throughout India. It has developed, constructed and operated solar projects of varying sizes, from utility scale to rooftop, since its inception in 2008. Highlights include the construction of India's first private utility scale solar PV power plant in 2009 and the implementation of the first MW scale rooftop project under the smart city initiative in 2013.
